

American Society of
Ophthalmic Trauma

Annual Meeting

EYE TRAUMA 2024

MAY 17-18, 2024
Houston, TX, USA

HOUSTON
Methodist
LEADING MEDICINE

Dear Eye Trauma 2024 Attendees:

Greetings!

On behalf of the American Society of Ophthalmic Trauma (ASOT), we warmly welcome you to "Eye Trauma 2024", ASOT's 4th Annual Meeting.

The conference brings together ophthalmologists from Eastern and Western Europe, Central and South America, India, Asia, and across the USA to innovate and learn. As the only US civilian conference dedicated solely to ophthalmic trauma, we will discuss big questions & challenges in our field.

The conference will address:

- Evidence-based management with perspectives from the military, academia, private practices, and NASA.
- Fresh approaches to triage and consultation, including telemedicine, AI, hospitalist models, and integration of eye care into wider trauma and disaster response systems.
- Cutting-edge publications, research design, and funding sources.
- New devices and strategies to bring products to market.
- Advocacy to reduce trauma through information from databases and epidemiology.
- Ethical and legal considerations in trauma care.

You will make connections with dedicated people in all subspecialties, earn 6.25 hours of CME, and be eligible for a 3% discount on TMLT insurance!

The schedule and meeting information are available within this program book, as well as on the website under <https://theasot.com/asot-2024/>

After the Friday wet lab, the conference kicks off with a Tex-Mex Welcome "Real World Cases" Dinner! Sign up for Saturday's fascinating Breakfast Roundtables, then immerse yourself in rapid-fire, high impact talks and explore the outstanding scientific posters and the latest in technology at the exhibits.

Saturday night, celebrate at Ill by Wolfgang Puck with delicious food and cocktails at the Awards presentation!

Our hope is to make this meeting as meaningful as possible for everyone and develop ideas that will impact care.

Sincerely,

Amy Coburn, MD
ASOT Program Chair

Planning Committee:

Grayson Armstrong, MD; Boonkit Purt, MD; Ankoor Shah, MD
Fasika Woreta, MD; Nicholas Scoville, MD; Grant Justin, MD; Sruti Rachapudi, BS, MBA

AMY COBURN, MD
PROGRAM CHAIR

AMERICAN SOCIETY OF EYE PHYSICIANS AND SURGEONS DAMAGE CONTROL
OPHTHALMIC TRAUMA IN-PERSON WET LAB

Damage control ophthalmology references a basic set of principles that all ophthalmologists should master to stabilize an injured eye. The goal of this 7-hour course is to provide the learner with tools to improve patient outcomes after ocular and adnexal injuries.

The learner will leave understanding the arc of diagnosis, medical management, microsurgical stabilization, and reconstruction/rehabilitation of the injured eye and gain the knowledge and surgical skills to confidently initiate damage control procedures.

Lab Capacity: 32 residents | fellows | practicing ophthalmologists

Lab Planning Committee:
Amy Coburn, MD | Boonkit Purt, MD | Grayson Armstrong, MD

Lab Faculty:
Rupesh Agrawal, MD(Res) (UCL), MMed (Singapore), FRCS(Glasgow), FAMS, DNB, DO
Masih Ahmed, MD | Nagham Al-Zubidi, MD | Ore-ofe O. Adesina, MD
Grayson Armstrong, MD, MPH | Barton Blackorby, MD | Richard Blanch, MD
Isaac Bleicher, MD | Imtiaz Chaudry, MD | Yewlin Chee, MD | Amy Coburn, MD
Garvin Davis, MD | Osama Al-Deyabet, MD | Jose Dalma Weiszhausz, MD | Tara Hahn, MD
Grant Justin, MD | Robb Mazzoli, MD | Aaron Miller, MD | Peter Mortenson, MD
Boonkit Purt, MD | Joanna Queen, MD | Oded Sagiv, MD | Nicholas Max Scoville, MD
Ankoor Shah, MD, PhD | Charles Soparker, MD | Marguerite Weinert, MD | Fasika Woreta, MD, MPH

| | | |
|--------------------|--|---|
| 10:00 AM-12:55 PM: | Faculty Registration Registration, orientation, and change into scrubs | MITIE Lab 5th floor Research Institute |
| 10:00 AM-10:55 AM: | Participant Registration Registration, and change into scrubs | |
| 11:00 AM-11:30 AM: | Lunch & Introduction with Surgical Principles Boonkit Purt, MD, USUHS/University of Michigan, ASOT Secretary | Board Room 2nd Floor Research Institute |
| 11:30 AM-12:30 PM: | Ocular Trauma Surgical Didactic Session Barton Blackorby, MD, USUHS/The Retina Institute | |
| 12:30 PM-06:05 PM: | Hands-On Wet Lab (only open to lab registrants) | MITIE Lab 5th floor Research Institute |
| 05:30 PM-07:00 PM: | Evening Registration for Dinner/Annual Meeting | Rio Grande Conference Room Dunn Building D1-059 |
| 07:00 PM-08:45 PM: | Dinner & Controversial Cases: 'Real World' Management of Challenging Clinical Scenarios | |
| | open to all Eye Trauma 2024 attendees. See next page for session details. | |

- **Moderators**

- Grayson W Armstrong, MD, Massachusetts Eye & Ear, Harvard Medical School, ASOT Industry Relations Chair
- Barton Blackorby, MD, USUHS, The Retina Institute
- Amy Coburn, MD, Blanton Eye Institute, Houston Methodist Hospital/Weill Cornell Medical College, ASOT Program Chair
- Grant Justin, MD, USUHS, ASOT President
- Boonkit Purt, MD, USUHS, University of Michigan, ASOT Secretary
- Nicholas Max Scoville, MD, Ohio State University, Wexner Medical Center, ASOT IT Chair
- Ankoo Shah, MD, PhD Boston Children's Hospital, ASOT Treasurer
- Fasika Woreta, MD, MPH Wilmer Eye Institute, The Johns Hopkins University, ASOT Immediate Past President

- **Massive Orbital Abscess After an Orbital Wall Fracture**

Darren Chen, MD, Massachusetts Eye and Ear, Harvard Medical School

- **Traumatic Orbital Apex Syndrome: How to Manage?**

Sen (Andrew) Yang, MD, Oregon Health & Science University Casey Eye Institute

- **Identifying and Reattaching the Levator Tendon After Trauma**

Fernando Martinez Guasch, BS, University of Maryland School of Medicine

- **Saved By the Button – Dehiscent PKP with Uveal Prolapse**

Cameron Yang, MD, The Ohio State University Wexner Medical Center
Department of Ophthalmology and Visual Sciences

- **A Machete Blow Injury to the Forehead Causes a Chorioretinitis Sclopetaria**

Jose Romero MD, Unidad Nacional De Oftalmologia, Guatemala

- **Man vs. Machine: A Case of Penetrating Ocular Trauma with a Traumatic Cataract**

Lauren Kiryakoza MD, University of Miami/Bascom Palmer Eye Institute

- **The Sequelae of a Paintball Injury Causing a Self-Sealing Full-Thickness Corneal Rupture**

Patricia Bai, MD, University of Illinois Chicago, Illinois Eye and Ear Institute

Station 1: Eyelid and Adnexal Trauma

o Educational Objectives:

1. Gain knowledge and experience taking a history of eye injuries involving the eyelids, lacrimal system, and bony orbit.
2. Evaluate and repair marginal eyelid lacerations, treat orbital compartment syndrome, and canalicular lacerations.
3. Discuss the indications for and perform an enucleation.
4. Discuss indications and timing for orbital fracture repair.

o Learning Objectives:

1. Exploration to identify structures; debridement; full-thickness lid marginal laceration repair; reapproximating tarsal plate; reapproximating levator to tarsus; eyelid septal defects; brief teaching of canalicular exploration and repair; tarsorrhaphy; lateral canthotomy/cantholysis for orbital compartment syndrome; enucleation
2. Emphasis on anatomic structures; closure in layers; ideal wound construction

Station 2: Corneoscleral Open Globe Repair

o Educational Objectives:

1. Gain knowledge and experience taking a history of and managing repair of eye injuries involving the cornea, limbus and sclera
2. Become competent at repair of an open-globe injury and understand common complications of open-globe injury.
3. Manage/repair corneal lacerations, limbal and scleral lacerations, hyphema, and endophthalmitis

o Learning Objectives:

1. Suture simple and complex corneal, limbal, scleral lacerations; peritomy with relaxing incision; muscle isolation and repair; manage uveal prolapse; vitreous prolapse; irrigate liquid hyphema; tap/culture/inject; glue; discuss timing of potential vitrectomy, removal of intraocular foreign bodies

Station 3: Traumatic Cataract

o Educational Objectives:

1. Gain knowledge and experience taking a history of eye injuries involving complex crystalline lens trauma scenarios with emphasis on capsular integrity, zonular stability, vitreous prolapse and iris injury.
2. Gain proficiency in understanding and practicing lensectomy and be introduced to various intraocular lens implantation techniques in a traumatized eye

o Learning Objectives:

1. Lensectomy; anterior vitrectomy; paracentesis; trypan blue and triamcinolone staining; removal of clotted hyphema; managing iris prolapse; faculty introduction to capsular tension ring; capsular ring segments and intraocular lens.

Station 4: Diagnostics & Surgical Equipment

o Educational Objectives:

1. Gain knowledge in utilization of diagnostic equipment to assess and pre-operatively manage ocular trauma
2. Become familiar with using surgical equipment to plan and execute proper ocular trauma repair

o Learning Objectives:

1. Ultrasonography, CT and MRI interpretation; use of viscoelastics; personalization and customization of surgical microscopes; phacoemulsification machines; vitrectomy machines; surgical equipment; suture material

GENERAL MEETING INFORMATION

REGISTRATION & RETRIEVING YOUR NAME BADGE

ON SITE BADGE RETRIEVAL FOR EYE TRAUMA 2024 BEGINS AT 10:00 AM, FRIDAY, MAY 17TH. PICK UP IS OPEN UNTIL 6:00PM.

ON SATURDAY, BADGE PICK UP IS OPEN FROM 7:00 AM UNTIL 5:00 PM.

INSTRUCTIONS TO OBTAIN YOUR BADGE: PLEASE SEARCH BY YOUR FIRST OR LAST NAME ON THE COMPUTER THAT IS AVAILABLE AT THE REGISTRATION DESK. ONCE YOU HAVE YOUR NAME ON THE SCREEN, CLICK PRINT. A BADGE WILL PRINT OFF, AND YOU MAY TAKE A LANYARD.

PLEASE NOTE: AS A MEMBER OF ASOT YOU WILL RECEIVE A DISCOUNT ON FUTURE MEETING REGISTRATION FEES, PLEASE CONSIDER JOINING THE AMERICAN SOCIETY OF OPHTHALMIC TRAUMA (ASOT): [THEASOT.COM/JOIN](https://theasot.com/join).

TELEPHONE & ON-SITE REGISTRATIONS ARE NOT ACCEPTED. CANCELLATION POLICY: WE KINDLY ASK THAT ALL REFUND REQUESTS BE SUBMITTED IN WRITING AND APPROVED BY THE EXECUTIVE OFFICE. REQUESTS MUST BE RECEIVED NO LATER THAN MAY 1, 2024. PLEASE NOTE THAT A 30% HANDLING FEE WILL APPLY TO ALL APPROVED REFUNDS. REGRETTABLY, REFUNDS CANNOT BE ISSUED AFTER MAY 1, 2024, AS PRE-PAYMENT HAS BEEN MADE FOR SPACE AND CATERING ARRANGEMENTS. THANK YOU FOR YOUR UNDERSTANDING AND COOPERATION IN THIS MATTER.

AMERICANS WITH DISABILITIES ACT

THE HOUSTON METHODIST INSTITUTE FULLY COMPLIES WITH THE LEGAL REQUIREMENTS OF THE ADA AND THE RULES AND REGULATIONS THEREOF. ANY PARTICIPANT WITH SPECIAL NEEDS MUST SUBMIT A WRITTEN REQUEST TO OUR OFFICE AT LEAST ONE MONTH PRIOR TO THE COURSE DATE.

INTERNET CONNECTION INFORMATION

PLEASE SELECT THE METHODIST GUEST OPTION. NO SIGN IN NEEDED.

EYE TRAUMA 2024

A world map with a tan background and blue location pins indicating the global distribution of attendees for Eye Trauma 2024. The pins are concentrated in North America, Europe, and Asia. Labeled countries include Russia, Mongolia, China, South Korea, Japan, Thailand, Indonesia, Australia, Papua New Guinea, New Zealand, Canada, Mexico, United States, Colombia, Venezuela, Brazil, Chile, Argentina, Peru, Bolivia, Norway, Sweden, Iceland, Finland, Denmark, Germany, France, Spain, Italy, Poland, Ukraine, Hungary, Czech Republic, Slovakia, Austria, Switzerland, Netherlands, Belgium, Luxembourg, Germany, France, Spain, Italy, Greece, Turkey, Egypt, Sudan, Chad, Niger, Mali, Algeria, Libya, Tunisia, Morocco, Mauritania, Senegal, Gambia, Guinea, Sierra Leone, Liberia, Ivory Coast, Ghana, Nigeria, Cameroon, Gabon, Congo, DRC, Angola, Namibia, Botswana, South Africa, and Zimbabwe.

ATTENDEES ACROSS THE GLOBE

HANDS ON WET LAB

CONFERENCE CENTER MAP

DIRECTIONS TO THE CONFERENCE

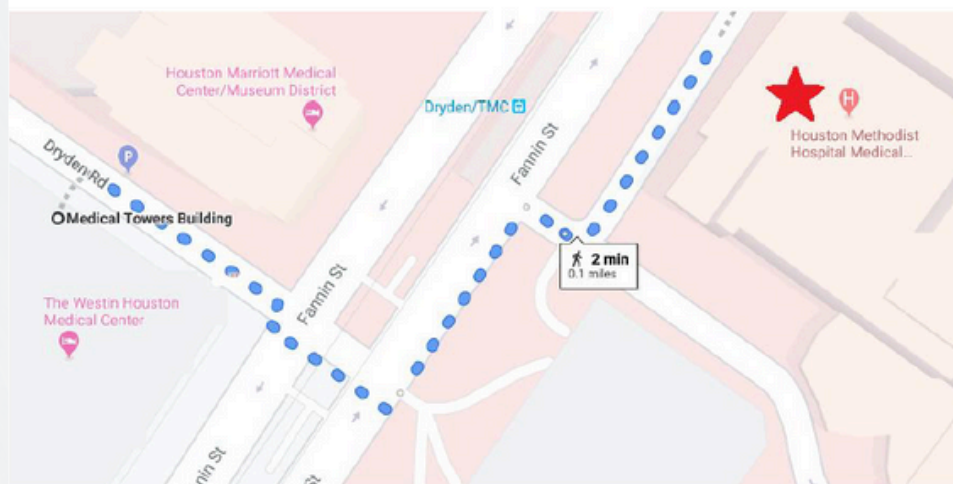

From: Houston Marriott Medical Center
To: The Methodist Hospital Research Institute

- **START** from the 2nd floor of the Marriott
- Cross into the Scurlock Tower building
 - Landmarks: Elevator bank on the left
- Turn right towards the crosswalk
 - Landmark: Chase Bank and Fidelity Investments office
- Cross into The Methodist Hospital
- Follow the walkway which overlooks the Crain Garden Lobby towards the escalators
- Take escalator down to the 1st floor
- Make u-turn towards the right
- Turn left at next hallway
 - Landmark: Starbucks kiosk on the right
- Turn right at the end of the hallway
 - Landmark: Cafeteria entrance is immediately facing you
- Turn left at next hallway and follow hallway
 - Landmark: Windows of the cafeteria span the left wall of this hallway
- **END** You have arrived at The Methodist Hospital Research Institute

Westin Houston Medical Center to
1709 Dryden

Houston Methodist Research Institute
6670 Bertner Avenue

- Walk across the Fannin Street to Houston Methodist Hospital (6565 Fannin Street, 77030) and enter the building via the circle drive.
- Proceed across main lobby (Crain Garden) towards the back of the building.
- Pass the Escalator/gift shop. Near Starbucks kiosk you will see a hallway leading further back into the building (towards the Market Place cafeteria).
- Continue straight down that hall until the end where you will turn right.
- Turn left immediately after and continue forward to reach the Research Institute (RI).
- Turn right and proceed to the end of the building.
- Take the stairs or elevator to the 2nd floor.

Destination Houston Methodist Research Institute, 6670 Bertner Avenue, 77030, 2nd Floor

Posters must be set- up by 8:00am on Saturday.

Rupesh Agrawal, MD

Head of Research National Healthcare Group
Eye Institute

As a Senior Consultant Ophthalmologist at the National Healthcare Group Eye Institute, Tan Tock Seng Hospital, Singapore, Dr. Agrawal has demonstrated exceptional expertise and commitment. With extensive training and research experience, he has significantly advanced the understanding and treatment of ocular inflammatory disorders, ocular trauma, and related conditions. Dr. Agrawal's humanitarian efforts extend far beyond his clinical practice. He has dedicated his time and resources to provide eye screenings, education, and surgical interventions to underserved communities, both locally and internationally. His philanthropic initiatives have earned him prestigious awards, including the Healthcare Humanity Award and the President Voluntarism Philanthropy Award. Dr. Rupesh Agrawal's exemplary leadership and compassionate service reflect the true spirit of humanitarianism in healthcare. We congratulate him on this well-deserved recognition and thank him for his inspiring commitment to improving the lives of others.

L A P I A N A - M A Z Z O L I A W A R D 2 0 2 4

A Professor of Surgery and past Chair of the Department of Ophthalmology at the Uniformed Services University of the Health Sciences (USUHS) School of Medicine, Dr. Madigan's expertise is renowned. He has made significant contributions to military medicine, pioneering initiatives such as the Warfighter Refractive Surgery Program, benefiting over 250,000 soldiers worldwide. Dr. Madigan's advocacy for mandatory eye armor wear has safeguarded thousands of service members' vision and quality of life. His expertise spans pediatric ophthalmology to complex adult diseases, earning him accolades such as The Ancient Order of St. Lucia by the Society of Military Ophthalmologists. A past President of the Washington Academy of Ophthalmology, Dr. Madigan's dedication to excellence and service exemplifies the highest standards of ophthalmology. We extend our heartfelt congratulations to Dr. Madigan on this well-deserved recognition of his outstanding contributions to the field.

William Madigan, MD

Chief of Division Ophthalmology at Children's
National Hospital
